### Indigenous Peoples In International Law

Indigenous Peoples in International Law (ISBN 0-19517-350-3) is a book written by James Anaya. [1] [2] According to the author, "the central contention of this book is that international law, although once an instrument of colonialism, has developed and continues to develop, however grudgingly or imperfectly, to support indigenous peoples' demands".

### Indigenous Peoples in International Law - Wikipedia

Anaya demonstrates that, while historical trends in international law largely facilitated colonization of indigenous peoples and their lands, modern international law's human rights program has been modestly responsive to indigenous peoples' aspirations to survive as distinct communities in control

The book surveys how indigenous peoples—having historically been viewed by international law and those that created the law alike as mere ‘ghosts in their own landscapes’—have recently emerged as international legal subjects and possessors of both sovereign (self-determination) and private (property) rights over territories.

### **Indigenous Peoples' Status in the International Legal ...**

In addition to “indigenous” or “indigeneity,” the concept of “peoples” has also been fiercely debated in international law. The debate centers on the question of whether “peoples” entail collective rights such as self-determination. Generally speaking, in international law, peoples have more rights than populations.
